

Children and young people

Heritage has a crucial role to play in enriching the lives of children and young people, creating a more inclusive society.

Since 1994, we are proud to have invested over £60million across the UK in projects working with children and young people. This includes the [£10m Kick the Dust programme](#).

The National Lottery Heritage Fund is committed to making heritage more inclusive and accessible to a wider range of people and this includes the younger generations. We know that children and young people can play a significant role in creating innovative and exciting heritage projects that really speak to them.

Explore some of our work below and find inspiration for your project, then [discover whether your idea is eligible for funding](#).
